is always in

TREE TRAILS **SUNSET HILLS** **Arboretum**

Any way you
like to travel...
Walk - Run - Skate

The City of McMinnville in an effort to promote trees in our community have designated the first of the "TREE TRAILS"

This trail is based around the Civic Center Walking Trail. Starting years ago with donations from local nursery owners, trees have been planted for educational and demonstration purposes for all to enjoy.

The name "Sunset Hills" comes from the original name of the neighborhood in which the Civic Center was built.

This walking trail is used by many for fun but now includes an educational component.

Trees, shrubs, and flowers are identified for you to read & learn from for your own use. We hope you will take this information and plant these desirable species at your home

We have planted many trees, shrubs, and flowers in an effort to improve the appearance & uses of the Civic Center & surrounding area. If you see problems or wish to see a particular tree planted please call us with your ideas.

This arboretum was created with help thru
* McMinnville Tree Advisory Board
* Tennessee Urban Forestry Council
* Federation of Garden Clubs

To more information or to join any of these groups, please contact the City of McMinnville Dept. of Urban Forestry at 931.474.8733
